PROJECTS

UBER RIDE DATA ANALYSIS WITH POWER BI

This Power BI project presents an interactive and visual analysis of Uber ride data to uncover key insights about ride patterns, user behavior, and operational efficiency. The project utilizes real-world Uber data (such as the NYC Uber pickup dataset) to provide a dynamic dashboard.

SALES ANALYSIS & INSIGHTS

Developed a Tableau dashboard based on dummy data. Providing insights into the company's sales. Managed data using MySQL and Power BI tools. The dashboard provides insights into company sales and profits, allowing users to filter data by month and year.

FOOD APP

An app made with reference to : <https://www.food.com/?ref=nav> based on MERN stack.

PROFESSIONAL EXPERIENCE

Skillablers

May 2024 - Present

Web Developer

Worked on live projects, including developing an ecosystem connecting individuals, institutes, and companies.

- Developed interactive and responsive user interfaces with React, ensuring a smooth user experience across devices.
 - Implemented state management using Redux to manage complex application states across components.
 - Developed RESTful APIs using Node.js and Express.js, providing scalable backend services for a web application.
 - Designed and implemented database schemas, tables, and relationships in MS SQL Server.
 - Used SQL Server Management Studio (SSMS) to troubleshoot and optimize slow-running queries, resulting in improved system performance.
-

EDUCATION & CERTIFICATIONS

Bachelor of Technology - (2018-2022)

Vivekanand Education Society's Institute Of Technology - Electronics And Telecommunication

PrepBytes MERN Stack Certificate (2022-2023)

Completed a PrepBytes MERN Stack Web Development Program.

SKILLS

- Programming & Scripting: JavaScript, TypeScript, Python, C#.
- Frontend Development: React Native, React, HTML, CSS, ASP.NET.
- Backend Development: Node.js, Express.js, REST APIs, MongoDB, MySQL.
- Tools: Power BI, Tableau.
